Test Case ID	Test Scenario	Test Case Title	Pre-requisites	Test Steps	Test Data	Expected Result (ER)	Actual Result	Priority	Result
<< Test Scenarios									
TC 001	(TS_001) Sign up Functionality	Checking the Sign up page for spelling or grammatical mistakes	1. Go to the webpage url https://www.pickaboo.com/ 2. The signup button should work	1. Go to the website url 2. Navigate to signup page 3. Check for spelling or grammatical errors	Not Applicable	There should not be any spelling or grammatical errors	Found as expected	P3	PASS
TC 002	(TS_001) Sign up Functionality	Verify the proper UI of the webpage adhering to a standard and user friendly design	1. Go to the webpage url https://www.pickaboo.com/ 2. The signup button should work	1. Go to the website url 2. Navigate to signup page 3. Check the interface of the website adhering to standard designs	Not Applicable	The UI should be properly built in a standard and user friendly way	Found as expected	P2	PASS
TC 003	(TS_001) Sign up Functionality	Verify the mandatory fields are marked with an asterisk	1. Go to the webpage url https://www.pickaboo.com/ 2. The signup button should work	1. Go to signup page 2. Check if the mandatory fields has an asterisk next to them	Not Applicable	The mandatory fields should have an asterisk next to them	The mandatory fields do not have an asterisk next to them	P2	FAIL
TC 004	(TS_001) Sign up Functionality	Verify the checkbox beside "I agree to privacy terms"	1. Go to the webpage url https://www.pickaboo.com/ 2. The signup button should work	1. Go to signup page 2. Check if there is a checkbox beside "I agree to privacy terms"	Not Applicable	There should be a checkbox beside "I agree with privacy terms"	No check box found	P4	FAIL
TC 005	(TS_001) Sign up Functionality	Verifying if the "Send OTP" button works properly	1. Go to the webpage url https://www.pickaboo.com/ 2. The signup button should work	1. Go to signup page 2. Put data in Name and Number field 3. Click the "Send" button	Name=nishat Number=01764908099	The OTP should be sent in the provided phone number	Found as expected	P1	PASS
TC 006	(TS_001) Sign up Functionality	Verify the error message by inputting wrong OTP	1. Go to the webpage url https://www.pickaboo.com/ 2. The signup button should work	1. Go to signup page 2. Put data in Name and Number field 3. Click the "Send" button 4. Put a wrong OTP in the OTP field and click continue	otp=7705	There should be an error meassage saying that the OTP is not verified	Found as expected	P1	PASS
TC 007	(TS_001) Sign up Functionality	Verify registering an account by only putting mandatory fields	1. Go to the webpage url https://www.pickaboo.com/ 2. The signup button should work	1. Go to signup page 2. Only put in the mandatory fields 3. Click "Register"	email= nishatr50@gmail.com password=123456	User should be registered to the website	Found as expected	P1	PASS
TC 008	(TS_001) Sign up Functionality	Verify registering an account by not putting any mandatory fields	1. Go to the webpage url https://www.pickaboo.com/ 2. The signup button should work	1. Go to signup page 2. Fill up all fields except the mandatory ones	Not Applicable	User should not be allowed to register	Found as expected	P1	PASS
TC 009	(TS_001) Sign up Functionality	Verify alert messages are displayed when any mandatory field information are not provided	1. Go to the webpage url https://www.pickaboo.com/ 2. The signup button should work	1. Go to signup page 2. Do not fill up the mandatory fields 3. Click "Register"	Not Applicable	Proper alert messages should be displayed	Found as expected	P2	PASS
TC 010	(TS_001) Sign up Functionality	Checking by inputting invalid email format	1. Go to the webpage url https://www.pickaboo.com/ 2. The signup button should work	1. Go to signup page 2. Input invalid email format	hello@world	User should not be able to sign up and shown an error message	Found as expected	P2	PASS
TC 011	(TS_001) Sign up Functionality	Checking by inputting a password that doesn't meet the requirements	1. Go to the webpage url https://www.pickaboo.com/ 2. The signup button should work	1. Go to signup page 2. Input a password that doesn't meet the requirements of the website (Length less than 6)	1234	User should not be able to sign up	Found as expected	P2	PASS
TC 012	(TS_001) Sign up Functionality	Verify the password values are hidden	1. Go to the webpage url https://www.pickaboo.com/ 2. The signup button should work	1. Go to signup page 2. Input the password 3. Check if the password values are hidden	123456	The password values should be hidden	Found as expected	P2	PASS

TC 013	(TS_001) Sign up Functionality	Check by inputing invalid combinations of characters in password and confirm password field	1. Go to the webpage url https://www.pickaboo.com/ 2. The signup button should work	1. Go to signup page 2. Input the password 3. Input a different password in the "confirm password" field	123456 111111	User should not be able to register	Found as expected	P1	PASS
TC 014	(TS_001) Sign up Functionality	Check the toggle button beside the password input field for visibility	1. Go to the webpage url https://www.pickaboo.com/ 2. The signup button should work	1. Go to signup page 2. Input the password 3. Use the password toggle button to change visibility	123456	User should be able to change visibility of the password using the toggle button	There is no toggle button	P5	FAIL
TC 015	(TS_001) Sign up Functionality	Checking registration button with valid credentials	1. Go to the webpage url https://www.pickaboo.com/ 2. The signup button should work	1. Go to signup page 2. Fillup all the mandatory information 3. Click register	email= nishatr50@gmail.com password=123456	User should be able to sign up in the website	Found as expected	P1	PASS
TC 016	(TS_001) Sign up Functionality	Checking confirmation mail sent to the registered email	1. Go to the webpage url https://www.pickaboo.com/ 2. The signup button should work	1. Go to signup page 2. Fillup all the mandatory information 3. Click register 4. Check email inbox for confirmation email	email= nishatr50@gmail.com password=123457	User should get a confirmation email in their inbox through which they can verify their account	Found as expected	P3	PASS
TC 017	(TS_001) Sign up Functionality	Checking 'Sign in with Facebook'	1. Go to the webpage url https://www.pickaboo.com/ 2. The signup button should work	1. Go to signup page 2. Click sign up using facebook 3. Provide all the mandatory information	Not Applicable	User should be able to sign up	Found as expected	P2	PASS
TC 018	(TS_001) Sign up Functionality	Checking 'Sign in with Google'	1. Go to the webpage url https://www.pickaboo.com/ 2. The signup button should work	1. Go to signup page 2. Click sign up using google 3. Provide all the mandatory information	Not Applicable	User should be able to sign up	Found as expected	P2	PASS
TC 019	(TS_001) Sign up Functionality	Checking clicking on the link in the email verifies the account.	1. Go to the webpage url https://www.pickaboo.com/ 2. The signup button should work	1. Go to signup page 2. Fill all necessary information and sign up 3. Go to email inbox and click on the confirmation email	Not Applicable	The user's account is verified and a message is displayed	Found as expected	P2	PASS
TC 020	(TS_001) Sign up Functionality	Checking keyboard tab button functionality	1. Go to the webpage url https://www.pickaboo.com/ 2. The signup button should work	1. Go to signup page 2. Use tab button to navigate from one field to another	Not Applicable	The user should be able to use tab button to navigate from one field to another	Found as expected	P5	PASS

Test Case ID	Test Scenario	Test Case Title	Pre-requisites	Test Steps	Test Data	Expected Result (ER)	Actual Result	Priority	Result
<a href="#">&lt;&lt; Test Scenarios</a>									
TC 021	(TS_002) Log in Functionality	Verify logging into the website using valid credentials	1. Go to the webpage url https://www.pickaboo.com/ 2. Login button should work	1. Go to the login page 2. Input valid credentials	email: nishatr50@gmail.com pass: 123456	User should be logged into the website	Found as expected	P1	PASS
TC 022	(TS_002) Log in Functionality	Verify logging into the Application using incorrect credentials (i.e. incorrect email address and Invalid Password)	1. Go to the webpage url https://www.pickaboo.com/ 2. Login button should work	1. Go to the login page 2. Input wrong credentials	email: abdsfjs@gmail.com pass: mdkfdb	User should not be not able to log in to the website	Found as expected	P1	PASS
TC 023	(TS_002) Log in Functionality	Verify logging into the Application using invalid email address and valid Password	1. Go to the webpage url https://www.pickaboo.com/ 2. Login button should work	1. Go to the login page 2. Input invalid email and correct password	email: abcd@gmail.com pass: 123456	User should not be not able to log in to the website	Found as expected	P1	PASS
TC 024	(TS_002) Log in Functionality	Verify logging into the Application using valid email address and invalid Password)	1. Go to the webpage url https://www.pickaboo.com/ 2. Login button should work	1. Go to the login page 2. Input vaild email and incorrect password	email: nishatr50@gmail.com pass: 111111	User should not be not able to log in to the website	Found as expected	P1	PASS
TC 025	(TS_002) Log in Functionality	Verify logging into the Application using invalid email format	1. Go to the webpage url https://www.pickaboo.com/ 2. Login button should work	1. Go to the login page 2. Input invalid email format 3. Input password and try to log in	email: abcd@abcd	warning message " The email you entered is invalid. Please check your email and try again" should be displayed	Found as expected	P2	PASS
TC 026	(TS_002) Log in Functionality	Verify showing proper warning messages	1. Go to the webpage url https://www.pickaboo.com/ 2. Login button should work	1. Go to login page 2. Input no credentials 3. Click on log in	Not Applicable	Warning message " Please enter an email address" should be displayed	Found as expected	P3	PASS
TC 027	(TS_002) Log in Functionality	Verify logging into the Application without providing any credentials	1. Go to the webpage url https://www.pickaboo.com/ 2. Login button should work	1. Go to login page 2. Input no credentials 3. Click on log in	Not Applicable	User should not be not able to log in to the website	Found as expected	P3	PASS
TC 028	(TS_002) Log in Functionality	Verify 'Forgotten Password' link is available in the Login page and is working	1. Go to the webpage url https://www.pickaboo.com/ 2. Login button should work	1. Go to the login page 2. Input email address and click forgot password	email: nishatr50@gmail.com	User should be taken to password restoration page	Found as expected	P2	PASS
TC 029	(TS_002) Log in Functionality	Verify clicking forgotten password actually leads to sending an email to the inbox for changing password	1. Go to the webpage url https://www.pickaboo.com/ 2. Login button should work	1. Go to the login page 2. Input email address and click forgot password 3. On the next page input email and click send link	email: nishatr50@gmail.com	User should get an email and be able to change the password successfully	Found as expected	P2	PASS
TC 030	(TS_002) Log in Functionality	Verify the text into the Password field is toggled to hide its visibility	1. Go to the webpage url https://www.pickaboo.com/ 2. Login button should work	1. Go to the login page 2. Input valid credentials 3. Change the visibility of the password using the toggle button inside the password field	123456	User should be able to toggle the visibility of the password	Found as expected	P3	PASS

TC 031	(TS_002) Log in Functionality	Verify the copying of the text entered into the Password field	1. Go to the webpage url https://www.pickaboo.com/ 2. Login button should work	1. Go to the login page 2. Input valid credentials 3. Right click and click copy on the password field	123456	User should not be able to copy the value of the password field	The value can be copied	P4	FAIL
TC 032	(TS_002) Log in Functionality	Verify Logging into the Application after changing the password	1. Go to the webpage url https://www.pickaboo.com/ 2. Login button should work	1. Go to the login page and click forget password 2. Change the password from the link given in email 3. Login with the new credentials	Not Applicable	User should be able to log in to the website	Found as expected	P1	PASS
TC 033	(TS_002) Log in Functionality	Verify Logging into the Application, closing the Browser without loggingout and opening the application in the Browser again	1. Go to the webpage url https://www.pickaboo.com/ 2. Login button should work	1. Go to the login page 2. Input valid credentials to login 3. Close the brwser without logging out 4. Navigate to the page once again	Not Applicable	User should be still logged in to the website	Found as expected	P3	PASS
TC 034	(TS_002) Log in Functionality	Verify the UI of the Login page	1. Go to the webpage url https://www.pickaboo.com/ 2. Login button should work	1. Go to the login page 2. Check the page title, design etc of the webpage	Not Applicable	Webpage should be similar to the SRS document	Found as expected	P2	PASS
TC 035	(TS_002) Log in Functionality	Verify the Login page functionality in all the supported environments and browsers	1. Go to the webpage url https://www.pickaboo.com/ 2. Login button should work	1. Go to the login page 2. Input valid credentials to login 3. Repeat the steps in different environments and browsers	Not Applicable	User should be able to log in from all the supported environments and browsers	Found as expected	P2	PASS
TC 036	(TS_002) Log in Functionality	Verify the password visibility toggle button is set to invisible by default	1. Go to the webpage url https://www.pickaboo.com/ 2. Login button should work	1. Go to the login page 2. Check the password visibility toggle button	Not Applicable	The toggle button should be set to invisible by default	The toggle button is not set to invisible by default	P2	FAIL

Test Case ID	Test Scenario	Test Case Title	Pre-requisites	Test Steps	Test Data	Expected Result (ER)	Actual Result	Priority	Result
<a href="#">&lt;&lt; Test Scenarios</a>									
TC 037	(TS_003) Logout Functionality	Verify Logging out by selecting Logout option from 'My Account' dropdown	1. Open the Application URL 2. User is logged in	1. Click on 'My Account' dropdown 2. Select 'Logout' option	Not Applicable	User should be logged out and taken to login page	Found as expected	P1	PASS
TC 038	(TS_003) Logout Functionality	Verify the Application session status, after logging in and closing the Browser without logging out	1. Open the Application URL 2. User is logged in	1. Close the Browser without Logging out 2. Open the Browser and navigate the application	Not Applicable	1. Application should not get logged out 2.The user logged in session need to be maintained	Found as expected	P2	PASS
TC 039	(TS_003) Logout Functionality	Verify logging out and browsing back	1. Open the Application URL 2. User is logged in	1. Click on 'My Account' icon Dropdown 2. Select 'Logout' option 3. Click on Browser back button	Not Applicable	User should not get logged in	Found as expected	P1	PASS
TC 040	(TS_003) Logout Functionality	Verify Logout option is not displayed under 'My Account' menu before logging in	1. Open the Application URL	1. Click on 'My Account' icon dropdown	Not Applicable	Logout option should not be displayed under 'My Account' dropdown	Found as expected	P2	PASS
TC 041	(TS_003) Logout Functionality	Verify logout will be done from all devices when user is logged in from different devices and logs out from one of them	1. Open the Application URL 2. User is logged in Chrome Browser on laptop 3. User is logged in with the same account on phone	1. Click on 'My Account' Dropdown in laptop 2. Select 'Logout' option 3. Perform any operation which requires the user to log, like going to the my account page, in phone	Not Applicable	User be logged out from phone too, instead of getting navigated to the my account page	Found as expected	P1	PASS
TC 042	(TS_003) Logout Functionality	Verify logging out and login in immediately after logout	1. Open the Application URL 2. User is logged in	1. Click on 'My Account' icon dropdown 2. Select 'Logout' option 3. Login immediately again with same or different account	Not Applicable	The account should get logged in	Found as expected	P2	PASS
TC 043	(TS_003) Logout Functionality	Verify 'Account Logout' page	1. Open the Application URL 2. User is logged in	1. Click on 'My Account' icon dropdown 2. Select 'Logout' option 3. Check the Page Heading, Page Title, Page URL and breadcrumb of the displayed 'Account Logout' page	Not Applicable	Proper Page Heading, Page Title, Page URL and Breadcrumb are displayed for 'Account Logout' page which also acts as a login page	Found as expected	P3	PASS
TC 044	(TS_003) Logout Functionality	Verify the UI of the Logout option and the 'Account Logout' page	1. Open the Application URL 2. User is logged in	1. Click on 'My Account' icon dropdown 2. Select 'Logout' option	Not Applicable	Proper UI adhering to the UI checklist should be displayed for Logout option	Found as expected	P3	PASS
TC 045	(TS_003) Logout Functionality	Verify the Logout functionality in all the supported environments (browsers)	1. Open the Application URL 2. User is logged in	1. Click on 'My Account' icon dropdown 2. Select 'Logout' option 3.Repeat it in different environments with different browsers	Not Applicable	Logout functionality should work correctly in all the supported environments and browsers	Found as expected	P2	PASS

Test Case ID	Test Scenario	Test Case Title	Pre-requisites	Test Steps	Test Data	Expected Result (ER)	Actual Result	Priority	Result
<< Test Scenarios									
TC 046	(TS_004) Home Page Functionality	Verify the UI of the Homepage is consistent	1. Open the Application URL	1.Go to the webpage url 2.Check each section for errors	Not Applicable	There should be no UI errors	Found as expected	P1	PASS
TC 047	(TS_004) Home Page Functionality	Verify if there are any spelling errors or grammatical errors	1. Open the Application URL	1.Go to the webpage url 2.Check each section for errors	Not Applicable	There should be no spelling or grammatical errors	Found as expected	P2	PASS
TC 048	(TS_004) Home Page Functionality	Verify navigating to Home Page from 'Shopping Cart' page	1. Open the Application URL 2. User is logged in	1. Go to the webpage 2. Add some products to the cart 3. Go to the "Cart" webpage 4. Navigate to the homepage	Not Applicable	User should be taken to Home page	Found as expected	P2	PASS
TC 049	(TS_004) Home Page Functionality	Verify navigating to Home page from any page of the Website using Logo	1. Open the Application URL 2. User is logged in	1. Go to the webpage 2. Navigate to any page of the Website 3. Navigate to Home page from any page of the Website using the logo link on the top corner	Not Applicable	User should be taken to Home page	Found as expected	P2	PASS
TC 050	(TS_004) Home Page Functionality	Verify navigating to Home page from any Category Page which don't have any products	1. Open the Application URL 2. User is logged in	1.Go to a product section with no available produts 2.Navigate to the homepage using the logo link on the top corner	Not Applicable	User should be taken to Home page	Found as expected	P3	PASS
TC 051	(TS_004) Home Page Functionality	Verify Hero Images and its slider options in the Home page	1. Open the Application URL	1. Go to the webpage 2. Check the Hero Images and slider options on the displayed Home page	Not Applicable	1. Correct Hero Images should be displayed. 2. Hero Images should slide automatically 3. User should also be able to slide the Hero Images using < and > options manually	Found as expected	P1	PASS
TC 052	(TS_004) Home Page Functionality	Verify the featured products should be displayed working properly	1. Open the Application URL	1.Check the Featured products in the displayed Home page 2. Click on each of them to go to their respective webpages	Not Applicable	1. Featured products should be displayed correctly 2. The links of the featured products should take to the correct webpages	Found as expected	P1	PASS
TC 053	(TS_004) Home Page Functionality	Verify the featured sections should be displayed working properly	1. Open the Application URL	1.Check the Featured section in the displayed Home page 2. Click on each of them to go to their respective webpages	Not Applicable	1. Featured sections should be displayed correctly 2. The links of the featured products should take to the correct webpages	Found as expected	P2	PASS
TC 054	(TS_004) Home Page Functionality	Verify the 'Home' page functionality in all the supported environments and browsers	1. Open the Application URL 2. User is logged in	1. Check the 'Home' page functionality in all the supported environments and browsers	Not Applicable	'Home' page functionality should work correctly in all the supported environments and browsers	Found as expected	P2	PASS
TC 055	(TS_004) Home Page Functionality	Verify if all the footer links are woking correctly	1. Open the Application URL 2. User is logged in	1. Go to the footer section of the website in the Home Page 2. Click on each of the footer links	Not Applicable	The footer links should navigate to their appropriate webpages	Found as expected	P2	PASS
TC 056	(TS_004) Home Page Functionality	Verify the social media icons working correctly	1. Open the Application URL 2. User is logged in	1. Go to the footer section of the website in the Home Page 2. Click on each of the social media icons	Not Applicable	The social media icons should take us to their respective websites.	Found as expected	P3	PASS
TC 057	(TS_004) Home Page Functionality	Verify the hover effect on the products in the home page	1. Open the Application URL 2. User is logged in	1. Go to the webpage 2. Hover on cursor over the items displayed in the home page	Not Applicable	Multiple images should be shown along with an "Add to Cart" option appearing in the bottom part of the images	Hovering over the items just zooms in the image and nothing else	P4	FAIL
TC 058	(TS_004) Home Page Functionality	Verify navigating to every page on 'My Account' dropdown	1. Open the Application URL 2. User is logged in	1. Go to the webpage 2. Click on 'My Account' dropdown menu 3. Click on each option	Not Applicable	1. User should be taken to the respective page	Found as expected	P2	PASS

Test Case ID	Test Scenario	Test Case Title	Pre-requisites	Test Steps	Test Data	Expected Result (ER)	Actual Result	Priority	Result
<< Test Scenarios									
TC 059	(TS_005) Search Functionality	Verify searching with an existing Product Name	1. Open the Application URL	1. Enter any existing product name into the 'Search' text box field 2. Click on the button having search icon	Product Name: Earbuds	Searched product should be displayed in the search results	Found as expected	P1	PASS
TC 060	(TS_005) Search Functionality	Verify searching with a non existing Product Name	1. Open the Application URL	1. Enter non existing product name into the 'Search' text box field 2. Click on the button having search icon	Product Name: Sunscreen	There is no product that matches the search criteria' should be displayed in the Search Results page	Found as expected	P2	PASS
TC 061	(TS_005) Search Functionality	Verify searching without providing any Product Name	1. Open the Application URL	1. Don't enter anything into the 'Search' text box field 2. Click on the button having search icon	Not Applicable	There should a alert message saying "Please fill out this field"	Found as expected	P4	PASS
TC 062	(TS_005) Search Functionality	Verify searching for a product after login to the Application	1. Open the Application URL 2. User is logged in	1. Enter any existing product name into the 'Search' text box field 2. Click on the button having search icon	Product Name: Earbuds	Searched product should be displayed in the search results	Found as expected	P1	PASS
TC 063	(TS_005) Search Functionality	Verify searching by providing a search criteria which results in mutiple products	1. Open the Application URL	1. Enter the search criteria in the 'Search' text box field which can result in mutiple products 2. Click on the button having search icon	Product Name: Earbuds	More than one products should be displayed in the search results page	Found as expected	P2	PASS
TC 064	(TS_005) Search Functionality	Verify all the fields in the Search functionality	1. Open the Application URL 2. User is logged in	1. Enter any existing product name into the 'Search' text box field 2. Click on the button having search icon	Product Name: Earbuds	All the functionality works properly	Found as expected	P2	PASS
TC 065	(TS_005) Search Functionality	Verify the UI of Search functionality and Search page options	1. Open the Application URL 2. User is logged in	1. Enter any existing product name into the 'Search' text box field 2. Click on the button having search icon	Not Applicable	Proper UI without any errors should be displayed	Found as expected	P3	PASS
TC 066	(TS_005) Search Functionality	Verify Search using the text from the product description	1. Open the Application URL	1. Enter any existing product name into the 'Search' text box field 2. Click on the button having search icon	Product name: 256GB	Products having the given text in its description should be displayed in the search results	Found as expected	P3	PASS
TC 067	(TS_005) Search Functionality	Verify Search by selecting the category of product	1. Open the Application URL	1. Enter any existing product name into the 'Search' text box field 2. Click on the button having search icon 3. Select one or more options from "Category"	Product name: 256GB Category: Apple	1. Product should be successfully displayed in the search results. 2. The product catagory should be relevant	Found as expected	P2	PASS
TC 068	(TS_005) Search Functionality	Verify multiple Products UI display in the search results	1. Open the Application URL	1. Enter the search criteria in the 'Search' text box field which can result in mutiple products 2. Click on the button having search icon 3. View the products and their Add to Cart options	Product name: 256GB	1. More than one products should be displayed in the search results page 2. Multiple product should be displayed without any problems	Found as expected	P3	PASS
TC 069	(TS_005) Search Functionality	Verify User is able to sort the Products displayed in the Search Results	1. Open the Application URL	1. Enter the search criteria in the 'Search' text box field 2. Click on the search icon. 3. Select several options from the 'Sort By' dropdown	Product name: 256GB	1. More than one product should be displayed in the search results page 2. Products are sorted according to the options selected in the 'Sort By' dropdown field	The sorting seems random	P2	FAIL
TC 070	(TS_005) Search Functionality	Verify 'Search' textbox field and the button having search icon are displayed on all the page of the website	1. Open the Application URL 2. User is logged in	1. Navigate to all the pages of the website	Not Applicable	1. Search box field and the button with 'Search' icon should be displayed on all the page of the website	Found as expected	P3	PASS
TC 071	(TS_005) Search Functionality	Verify Breadcrumb of the 'Search' page	1. Open the Application URL 2. User is logged in	1. Enter any existing product name into the 'Search' text box field 2. Click on the button having search icon 3. Check whether the Breadcrumb option exists	Product name: 256GB	Breadcrumb option should be working correctly	Found as expected	P3	PASS

TC 072	(TS_005) Search Functionality	Verify we can use all the options of Search functionality using the Keyboard keys	1. Open the Application URL 2. User is logged in	1. Press Tab and Enter keys to perform Search operation and select several options in the Search page	Not Applicable	User should be able to perform Search operation and select several options in the Search page using the Keyboard keys Tab and Enter	The function of tab key cannot be used in the searchbox	P4	FAIL
TC 073	(TS_005) Search Functionality	Verify Page Heading, Page URL and Page Title of the 'Search' page	1. Open the Application URL 2. User is logged in	1. Enter any existing product name into the 'Search' text box field 2. Click on the button having search icon 3. Check the Page Heading, Page URL and Page Title of the 'Search' page	Not Applicable	A proper Page Heading, Page URL and Page Title should be displayed for 'Search' page	Found as expected	P3	PASS
TC 074	(TS_005) Search Functionality	Verify the Search functionality in all the supported environments and browsers	1. Open the Application URL 2. User is logged in	1. Enter any existing product name into the 'Search' text box field 2. Click on the button having search icon	Not Applicable	Search functionality should work correctly in all the supported environments and browsers	Found as expected	P3	PASS
TC 075	(TS_005) Search Functionality	Verify proper search history is displayed	1. Open the Application URL 2. User is logged in	1. Enter any existing product name into the 'Search' text box field 2. Repeat the process several times 3. Check the search history below the search bar	Not Applicable	The search keywords should be properly displayed	No search history available	P3	FAIL
TC 076	(TS_005) Search Functionality	Verify the Search history can be deleted	1. Open the Application URL 2. User is logged in	1. Enter any existing product name into the 'Search' text box field 2. Repeat the process several times. 3. Click on the delete icon to erase the search history	Not Applicable	The search keywords should be deleted	No search history available	P4	FAIL

TC 077	(TS_006) Manage Account Functionality	Verify navigating to 'Manage Account' page after login	1. Open the Application URL 2. User is logged in	1. Login using email and password 2. Click on my account dropdown menu 3. Click on Manage Account	Not Applicable	1. User should be taken to 'Manage Account' page	Found as expected	P1	PASS
TC 078	(TS_006) Manage Account Functionality	Verify if information can be changed in "Manage account page"	1. Open the Application URL 2. User is logged in	1. Login using email and password 2. Click on my account dropdown menu 3. Click on Manage Account 4. Click on "Nickname" field and edit 5.Click Save	Not Applicable	The new information should be saved	Found as expected	P2	PASS
TC 079	(TS_006) Manage Account Functionality	Verify Success pop up after information change	1. Open the Application URL 2. User is logged in	1. Login using email and password 2. Click on my account dropdown menu 3. Click on Manage Account 5. Change a certain information and save 5. Check for a green popup would appear with the text "Success"	Not Applicable	A green popup would appear with the text "Update Success"	No success popup displayed	P3	FAIL
TC 080	(TS_006) Manage Account Functionality	Verify Breadcrump in 'Manage Account' page	1. Open the Application URL 2. User is logged in	1. Login using email and password 2. Click on my account dropdown menu 3. Click on Manage Account 4. Verify the Breadcrumb in the displayed 'Manage Account' page	Not Applicable	Breadcrumb should be displayed in the 'Manage Account' page and is working properly	Breadcrumb is not displayed	P4	FAIL
TC 081	(TS_006) Manage Account Functionality	Verify Page URL, Page Heading and Page Title of the 'Manage Account' page	1. Open the Application URL 2. User is logged in	1. Login using email and password 2. Click on my account dropdown menu 3. Click on Manage Account 4. Check the Page URL, Page Title and Page Heading that is displayed in the 'Manage Account' page	Not Applicable	Correct Page URL, Page Title and Page Heading should be displayed	Found as expected	P3	PASS
TC 082	(TS_006) Manage Account Functionality	Verify the UI of 'Manage Account' page functionality	1. Open the Application URL 2. User is logged in	1. Login using email and password 2. Click on my account dropdown menu 3. Click on Manage Account 4. Check the UI of the functionality related to 'Manage Account' page	Not Applicable	Proper UI adhering to the UI checklist should be displayed for the 'Manage Account' page functionality	Found as expected	P3	PASS
TC 083	(TS_006) Manage Account Functionality	Verify the 'Manage Account' page functionality in all the supported environments and browsers	1. Open the Application URL 2. User is logged in	Check the 'Manage Account' page functionality in all the supported environments and browsers	Not Applicable	Manage Account' page functionality should work correctly in all the supported environments and browsers	Found as expected	P2	PASS
TC 084	(TS_006) Manage Account Functionality	Check each of the links inside "Manage account" Section	1. Open the Application URL 2. User is logged in	1. Login using email and password 2. Click on my account dropdown menu 3. Click on Manage Account 4. Check each of the links inside the Manage Accounts	Not Applicable	Links should properly open and navigate to where they are supposed to	Found as expected	P2	PASS

TC 085	(TS_006) Manage Account Functionality	Verify the "Manage Addresses" section inside the Manage Account	1. Open the Application URL 2. User is logged in	1. Login using email and password 2. Click on my account dropdown menu 3. Click on Manage Account 4. Navigate to "Manage Addresses" 5. Enter an address and save it	Not Applicable	The address should be displayed in the address book section	Found as expected	P2	PASS
TC 086	(TS_006) Manage Account Functionality	Verify the text fields in address book to have proper place holders	1. Open the Application URL 2. User is logged in	1. Login using email and password 2. Click on my account dropdown menu 3. Click on Manage Account 4. Navigate to "Manage Addresses" 5. Check to see placeholders in text fields	Not Applicable	Text fields must have proper place holders	Found as expected	P2	PASS
TC 087	(TS_006) Manage Account Functionality	Verify the address book by giving blank information	1. Open the Application URL 2. User is logged in	1. Login using email and password 2. Click on my account dropdown menu 3. Click on Manage Account 4. Navigate to "Manage Addresses" 5. Click save without providing any information	Not Applicable	The text fields should display relevant errors underneath them	Found as expected	P2	PASS
TC 088	(TS_006) Manage Account Functionality	Check the address book mandatory fields	1. Open the Application URL 2. User is logged in	1. Login using email and password 2. Click on my account dropdown menu 3. Click on Manage Account 4. Navigate to "Manage Addresses" 5. Try to save without providing a mandatory information	Not Applicable	The text fields should display relevant errors underneath them	Found as expected	P3	PASS
TC 089	(TS_006) Manage Account Functionality	Check the "make default" checkbox in the address book	1. Open the Application URL 2. User is logged in	1. Login using email and password 2. Click on my account dropdown menu 3. Click on Manage Account 4. Navigate to Address book and provide necessary information 5. Mark the checkbox for "make default"	Not Applicable	The address will be made default	Found as expected	P2	PASS
